Forecast for Friday 23 Apr 2021

Weather: A dry day with some good spells of sunshine, although rather more cloud to the north of the Plateau especially at first.

Chance of cloud free mountain/hill tops above 800m: Around 60% during the morning to the north or the Plateau, otherwise close to 100% with little or no cloud below the summits.

Visibility: Occasional or periods of cloud above about 600m in north during the morning. Away from cloud visibility, very good with good panoramic views of surrounding mountains.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Valley temperatures in south around minus 1 or 2 Celsius at dawn and rising to plus 16 or 17 Celsius by day. Risk of sunburn in the strong sunlight. Feeling rather cold on higher summits despite the sunshine.

Forecast for Saturday 24 Apr 2021

Weather: Eastern and northern hills may see rather a lot of cloud at first, but generally another largely dry day with some good spells of sunshine developing, just a small risk of an isolated light afternoon shower. Strong sunshine brings a risk of sunburn.

Maximum wind: Easterly or southeasterly around 10mph.

Chance of cloud free mountain/hill tops above 800m: Around 60% at first in north and east, otherwise close 100%.

Visibility: Occasional or periods of cloud above about 450m in north and east lifting and breaking through morning. Away from cloud, visibility generally very good with good panoramic views of surrounding mountains.

Temperature: **Glens:** Around minus 1 or 2 Celsius at dawn in south and west, rising to plus 16 or 17 Celsius by day
At 800m: Plus 2 Celsius rising to plus 8 Celsius by day
Freezing level: Just above summits and rising
